

**Family Tree Private School
Loxahatchee, FL**

Dear Nancy,

We are writing this letter to tell you how much the McKay Scholarship program and your school have helped our son. He has progressed so far in this past year!!! This is just what our family needed. We were able to provide him with his special learning thought process to get him to understand reading, writing, socialization and companionship, which as you know is very difficult for our special autistic population.

This year he has progressed in speech and academics more than any other school year and our son has been going to school since he was three years old and he is now seven. We are so blessed to be a part of his life and to be able to give him all the support he needs through Family Tree Private School and the McKay Scholarship Program. In the school year 2004-2005 we are putting him in his public home school to be with his friends in the neighborhood. He will be in a regular ed. Classroom!!!!!! This is thanks to Family Tree Private School and the McKay Scholarship Program.

Nancy we thank you so much for all your input and support. I hope and pray that for our future special needs population, McKay Scholarships will be around for a long time.

Nancy, keep up the good work and God Bless you for such a wonderful school. Thank you so much.

Sincerely,
